Will J. Jedrzejczak

Top Secret/SCI Clearance w/ Full Scope Polygraph | LinkedIn: Will Jedrzejczak | DC-Metro Area

EXPERIENCE

Scale AI (Public Sector) **Washington, D.C.**
National Security Technical Program Manager *2026 - Present*

- Directed a core mission area for Scale's largest contract, the $151B Golden Dome initiative, focusing on the development and deployment of cyber effects while managing a cross-functional team of 50+ engineers
- Led a multi-million dollar AI security program for an Intelligence Community customer, autonomously driving customer synchronizations, roadmap planning, and team coordination; authored and delivered 10+ strategic reports to IC leadership.

Federal Bureau Of Investigation (Cyber Division) **Chantilly, Virginia**
Computer Scientist / Software Engineer *2026 - 2026*

- Built 153 Splunk panels ingesting 1M+ network packets to support FBI Cyber Division cyber operations; architected AWS VPC Flow Log logging and presented findings directly to the Chief AI Officer (CAIO)
- Developed 10+ Python and Scapy traffic generator scripts to automate operations and support hands-on technical training for FBI personnel

HiddenLayer (DoW and IC) **Washington, D.C.**
National Security Solutions Architect *2026 - 2026*

- Deployed 5+ air-gapped AI security environments for DoW and IC customers using AWS CloudFormation, configuring secure infrastructure for ML model scanning, vulnerability detection, and runtime threat protection.
- Drove federal sales and capture efforts through customer demos, RFIs, and solution architecture, contributing to HiddenLayer's selection for the MDA's $151B SHIELD IDIQ and supporting its 10x+ ARR growth.

Blue Sky Innovators (DoW IRAD) **Reston, Virginia**
Research and Development Engineer (Contract) *2025 - 2026*

- Led a Python-based agentic pipeline with GitHub/GitLab integrations and air-gapped LLMs for automated code flaw detection; presented architecture directly to the GitHub CISO and 200+ defense stakeholders

Amazon Web Services (AWS Professional Services) **Arlington, Virginia**
National Security Cloud Engineer *2025 - 2025*

- Engineered a full-stack, RAG-based AI educational tool using Python and AWS CDK, seamlessly integrating 40+ cloud services including Amazon Bedrock, S3, and OpenSearch; delivered the solution in half the projected timeline, achieved <30ms latency for 100+ concurrent users, tripled project KPIs, and expanded initial scope by over 200%
- Hosted a company-wide Generative AI workshop for 50+ attendees, leading technical instruction on Large Language Models (LLMs), Natural Language Processing (NLP), sentiment analysis, vector embeddings, and prompt engineering best practices

ManTech (Data and AI Office) **Herndon, Virginia**
Technical Engineer & Subject Matter Expert (II) *2024 – 2025*

- Developed a Python & Google Cloud Platform-based inventory tracking app for the Army under the $850M ALECS program, cutting latency by 45%, boosting performance by 25%, and presenting the final build directly to the CEO
- Oversaw Identity and Access Management and Active Directory for 10,000+ users, working directly alongside the CIO, and successfully established the company's first campus outreach program
- Ranked top performer for ticket closures in Q1 2025, earned two promotions in under a year, and was the only summer employee selected for a year-round extension

CERTIFICATIONS

- **CompTIA:** IT Fundamentals+, A+, Network+, Security+, Cybersecurity Analyst+, Secure Infrastructure Specialist, CIOS, CSAP
- **AWS:** Cloud Technical Essentials, Cloud Practitioner, AI Practitioner, Solutions Architect Associate, SysOps Administrator Associate, Developer Associate, Data Engineer Associate, Machine Learning Engineer Associate, AI Developer Professional, Solutions Architect Professional
- **Microsoft:** Create a Serverless Application, Computers and Operating Systems and Security, Office Specialist 2019
- **Google:** Google AI Professional, Google Cloud Platform Fundamentals, Gemini for Workspaces, Data Foundations, Insights, & Science, Automate Cybersecurity Tasks
- **Cisco:** Networking Technician Career Path
- **Consulting**: Deloitte Cyber, Deloitte Technology, Accenture Tech Consulting, PwC Technology, BCG Digital Transformation
- **Palantir:** Foundry & AIP Builder Foundations, Foundry Aware Professional, Scoping Use Cases In Foundry & AIP
- **DoD**: Cyber Awareness Challenge 2025

EDUCATION

Georgia Institute of Technology — **Atlanta, Georgia**
M.S. in Computer Science, Specialization in Artificial Intelligence — *In Progress*

- **GPA:** 4.00/4.00
- **Related Coursework:** AI, Ethics, and Society, Intro to Cognitive Science, Information Security Policies, Geopolitics in Cybersecurity

James Madison University (Honors College) — **Harrisonburg, Virginia**
B.S. in Information Technology, Minor in Honors Interdisciplinary Studies — *Graduated*

- **GPA:** 3.97/4.00 *(Valedictorian of Major) (President's List 6/6 Semesters)*
- **Related Coursework:** Advanced Cybersecurity, Advanced Telecommunications & Networking, Cloud Computing in Private Networks, Data Science & Machine Learning, Discrete Math, Data Structures & Advanced Programming, Database Administration, Information Security & Privacy
- **Clubs & Involvement**: Founding Ambassador, Teaching Assistant, Madison Tech Society (President), Madison Consulting Club (Vice President), Cyber Defense Club (Executive), Dean's Student Advisory Council (Leader), HON100 (Teacher), madiSTEM, Alpha Lambda Delta
- **Conferences:** SHMOOCON, CYBERWARCON, IEEE, CAPWIC, NCHC

PROJECTS & VOLUNTEERING

RCPS (Rockingham County Public Schools) — **Rockingham County, Virginia**
Network & Data Engineer — *2025 – 2026*

- Rebuilt RCPS's division-wide telephone allocation system across 23 schools, improving telecom inventory accuracy, billing visibility, and support workflows for a district serving 11,679 students, 834+ teachers, and nearly 2,000 staff
- Supported Juniper network setup and database migration while building 5+ Python/pandas pipelines to analyze student testing outcomes and generate insights for state lobbying, legislative discussions, and district decision-making

Friend(s) (Consumer Application) — **Ashburn, Virginia**
Principal Software Engineer — *2025 – 2026*

- Built a full-stack consumer application using AWS services including EC2, Cognito, S3, and API Gateway, supporting real-time user authentication and scalable backend infrastructure
- Led engineering execution for a cross-functional team using Git, ticketing workflows, and sprint planning, contributing to over $50,000 in secured funding and successful production deployment

Cyber Security Forum Initiative (CSFI US) — **Washington, D.C.**
Cyber Threat Analyst — *2025 – 2025*

- Produced 10+ 20-page cyber threat intelligence reports supporting U.S. government, military, and partners, focused on APT groups

Solvitur Systems (Cloud, AI & ML) — **Leesburg, Virginia**
Employee — *2024 – 2024*

- Improved UI/UX of 20+ pages while conducting web penetration tests to align usability with security standards

MusicCPR (Music CPR) — **Harrisonburg, Virginia**
Web Developer — *2023 - 2024*

- Utilized Python, React, HTML, CSS, and Git to develop a website supporting music education for underrepresented communities; selected as the only freshman to join the project team

Deloitte — **Rosslyn, Virginia**
Deloitte's Leadership, Alleyship, & Mentorship Program Apprentice — *2024 – 2025*

- Selected twice as the youngest apprentice in the cohort while being mentored by Deloitte's AI & Engineering practice

SKILLS

AI, Machine Learning & Data: Artificial Intelligence (AI), Machine Learning, Large Language Models (LLMs), Agentic Stack Development, Claude (Code), Codex

Cloud, IT & Cybersecurity: Amazon Web Services (AWS), Cloud Infrastructure, Palantir Foundry, Splunk, Wireshark, Wireless Attack Detection, Linux (Ubuntu, Mint, Kali), macOS, Windows

Programming & Automation: Python, Java, JavaScript, TypeScript, React, HTML, CSS, Flask, CI/CD, Scripting, Automation, Full-Stack Platforms

Consulting & Management: Tech Consulting, Digital Transformation, Program Management, Project Management, U.S. Department of Defense (DoD) Frameworks, Jira, Linear, Antigravity
